TREE FOUNDATION

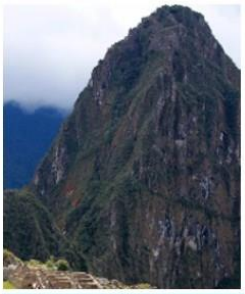

Join director, Dr. Meg Lowman in the AMAZON!

AMAZON
Jul. 23 to Aug. 1, 2021

+ Machu Picchu!

"This is a non-stop workshop full of once-in-a-lifetime experiences."

Unique, active, and fun! This citizen science expedition is an eye-opening introduction to the environmental and cultural aspects of the Amazon Rainforest and river system in the Amazon basin of Northern Peru. The program is safe, comfortable, and accessible, offering the opportunity for many intercultural interactions, plus science and service field experiences:

- Work side-by-side with Dr. Meg Lowman in of one of the most biologically diverse ecosystems on the planet.
- Ascend over 115 feet on a 1/4-mile Rainforest Canopy Walkway, one of the few of its kind in the New World.
- Interact with indigenous people and see how they use the forest for medicine, food, and shelter.
- Contribute to a Community Service Project to benefit people who live in a village along the Amazon River.
